

L2TP Server | L2TP Client | Global Config | Tunnel List

L2TP Server Settings

+ Add - Delete

<input type="checkbox"/>	ID	WAN	IPsec Encryption	Status	Operation
<input type="checkbox"/>	1	WAN1	Encrypted	Enabled ✖	

And then I set up this :

Users

User Account List

+ Add - Delete

<input type="checkbox"/>	ID	Account Name	Protocol	Local IP Address	IP Address Pool	Network Mode	Remote Subnet	Operation
<input type="checkbox"/>	1	PaperLess	PPTP	192.168.1.10	VPN	Client-to-LAN	--	
--	2	VPN	L2TP	192.168.1.10	VPN	Client-to-LAN	--	---

Account Name:

Password:

Low
 Middle
 High

Protocol: ▼

Local IP Address:

IP Address Pool: ▼

DNS Address:

Network Mode: ▼

Max Connections: (1-100)

For some reason the PPTP works bit the L2TP doesn't and I get the error below:
